Mr. Bocinsky,

This letter acknowledges receipt of your Freedom of Information Act (FOIA) request (copy attached) dated February 14, 2025, to the Department of Agriculture (USDA) Farm Production and Conservation Business Center (FPAC-BC). Your request was received in this office February 14, 2025 and assigned control number 2025-FSA-04691-F. Please use this control number for all future communications regarding this request.

You requested the following: tabular data of the county-level Normal Grazing Periods for Livestock Forage Disaster Program years 2008 – 2024. Normal grazing periods are defined in US code: “Normal grazing period means, as determined by FSA, with respect to a specific type of grazing land or pastureland in the county, the period during the calendar year when grazing animals receive daily nutrients and satisfy net energy requirements without supplemental feed” (7 CFR 1416.202). They are implicated in eligibility for several assistance programs administered the FSA, including the Livestock Forage Disaster Program. FSA Guidance 1-LFP Amend. 4 describes a process by which State FSA offices may adjust normal grazing periods annually, stipulating, “the grazing periods established for LFP must be the same as the grazing periods that have been established for NAP, and in accordance with the grazing period established in the NCT.” I would like the county-level tabular data of Normal Grazing Periods for past program years. These data should minimally include fields for FSA State, County Name, State & County Code, Program Year, Pasture Type, Start Date, and End Date. (Date Range for Record Search: From 01/01/2008 To 02/14/2025)

Your request is being handled under the provisions of the Freedom of Information Act (FOIA), 5 U.S.C. § 552 (<http://www.usdoj.gov/oip/amended-foia-redlined.pdf>).
